

Patient Name: _____

Date of Birth: _____

Name of person completing this form if different from above: *(please print)* _____

Patient's Weight: _____ lbs. Height _____

List your current symptoms and medical history relating to this scan (i.e. the reason for this study):

List any other scans or x-rays at another facility that would pertain to this study:

Exam Type: _____ Date: _____ Where: _____

Exam Type: _____ Date: _____ Where: _____

The following items can interfere with a MRI study—please answer each question.

Screening Questions

- Cardiac pacemaker?..... Yes No
- Cardiac implanted defibrillator? Yes No
- Any electronic/mechanical/magnetic implant? .. Yes No
- Aneurysm clip? Yes No
- Neurostimulator/Bio stimulator?..... Yes No
- Any type of internal electrodes or wires? Yes No
- Any type of ear implant/Cochlear implant? Yes No
- Hearing aid? Yes No
- Implanted drug pump?..... Yes No
- Any type of coil/filter/stent? Yes No
- Any type of metal (bullet/BB/shrapnel)?..... Yes No
- Artificial heart valve?..... Yes No
- Artificial eye? Yes No
- Eyelid spring? Yes No
- Penile implant? Yes No
- Any type of surgical clip? Yes No
- Any IV access port?..... Yes No
- Medication patch?..... Yes No
- Shunt? Yes No
- Artificial limb or joint?..... Yes No
- Tissue expander? Yes No
- Dentures/partial? Yes No
- IUD/diaphragm/pessary? Yes No
- Surgical mesh?..... Yes No
- Body piercing? Yes No
- Wig/hair implants? Yes No
- Tattoos/tattooed eyeliner Yes No
- Magnetic eyelashes? Yes No
- Radiation seeds? Yes No
- Implanted items(pins/screws/rods/plates)? Yes No
- Any hair accessories(bobby pins/barrettes)? Yes No
- Jewelry?..... Yes No
- Any other type of implanted item? Yes No
- Are you diabetic? Yes No
- Currently on dialysis?..... Yes No
- Do you have any kidney problems? Yes No
- Have you ever had metal in your eyes?..... Yes No

- Any surgery in the past 2 months?..... Yes No
- Any surgery in the area being scanned?..... Yes No
- Currently pregnant or nursing?..... Yes No
- Ever diagnosed with cancer? Yes No
- Asthma or other allergic respiratory disease? ... Yes No
- Allergies? Yes No

List: _____

Have you ever had an allergic reaction to a contrast agent? (X-ray/CT/MRI dye) Yes No

List: _____

Please mark on the drawing indicating the location of any metal inside your body, site of surgical operation, or area of pain/concern.

Please see back for contrast information

Patient, Parent, or Legal Guardian Signature _____

Date _____

MEDICATION GUIDE
PROHANCE® (prō- 'han(t)s)
(Gadoteridol)
Injection for intravenous use

What is PROHANCE?

- PROHANCE is a prescription medicine called a gadolinium-based contrast agent (GBCA). PROHANCE, like other GBCAs, is used with a magnetic resonance imaging (MRI) scanner.
- An MRI exam with a GBCA, including PROHANCE, helps your doctor to see problems better than an MRI exam without a GBCA.
- Your doctor has reviewed your medical records and has determined that you would benefit from using a GBCA with your MRI exam.

What is the most important information I should know about PROHANCE?

- PROHANCE contains a metal called gadolinium. Small amounts of gadolinium can stay in your body including the brain, bones, skin and other parts of your body for a long time (several months to years).
- It is not known how gadolinium may affect you, but so far, studies have not found harmful effects in patients with normal kidneys.
- Rarely, patients have reported pains, tiredness, and skin, muscle or bone ailments for a long time, but these symptoms have not been directly linked to gadolinium.
- There are different GBCAs that can be used for your MRI exam. The amount of gadolinium that stays in the body is different for different gadolinium medicines. Gadolinium stays in the body more after Omniscan or Optimark than after Eovist, Magnevist, or MultiHance. Gadolinium stays in the body the least after Dotarem, Gadavist, or ProHance.
- People who get many doses of gadolinium medicines, women who are pregnant and young children may be at increased risk from gadolinium staying in the body.
- Some people with kidney problems who get gadolinium medicines can develop a condition with severe thickening of the skin, muscles and other organs in the body (nephrogenic systemic fibrosis). Your healthcare provider should screen you to see how well your kidneys are working before you receive PROHANCE.

Do not receive PROHANCE if you have had a severe allergic reaction to PROHANCE.

Before receiving PROHANCE, tell your healthcare provider about all your medical conditions, including if you:

- have had any MRI procedures in the past where you received a GBCA. Your healthcare provider may ask you for more information including the dates of these MRI procedures.
- are pregnant or plan to become pregnant. It is not known if PROHANCE can harm your unborn baby. Talk to your healthcare provider about the possible risks to an unborn baby if a GBCA such as PROHANCE is received during pregnancy
- have kidney problems, diabetes, or high blood pressure
- have had an allergic reaction to dyes (contrast agents) including GBCAs

What are the possible side effects of PROHANCE?

- See "What is the most important information I should know about PROHANCE?"
- Allergic reactions. PROHANCE can cause allergic reactions that can sometimes be serious. Your healthcare provider will monitor you closely for symptoms of an allergic reaction.

The most common side effects of PROHANCE include: nausea, taste perversion, headache, feeling hot, or burning at the injection site.

These are not all the possible side effects of PROHANCE.

Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.

General information about the safe and effective use of PROHANCE.

Medicines are sometimes prescribed for purposes other than those listed in a Medication Guide. You can ask your healthcare provider for information about PROHANCE that is written for health professionals.

What are the ingredients in PROHANCE?

Active ingredient: gadoteridol

Inactive ingredients: calteridol calcium, tromethamine

Manufactured by: BIPSO GmbH-78224 Singen (Germany)

Manufactured for: Bracco Diagnostics Inc., Monroe Township, NJ 08831

US Patent No. 5,474,756; 5,846,519; and 6,143,274.

For more information, go to www.imaging.bracco.com or call 1-800-257-5181.
